Mammoth Mt. in Mid-Winter

Mammoth Mt. in July

The Lower Warming Hut and Terrain

Mammoth Mt.

Mammoth Mt., one of the most prolific snow mountains of the West, offers unexcelled skiing for the beginner to the expert. Five permanent tows take the skier into every type of ski terrain, affording nearly a mile and a half of downmountain runs. Here you'll find skiing of the Swiss Alps type, located in California's famed High Sierra. Plenty of snow for early season skiing . . . and lasting well into July.

WARMING HUT—Offers refreshments, equipment rentals, Ski Patrol headquarters service.

SKI SCHOOL—Mammoth Mt. Ski School operates daily. Toni Milici, FWSIA certified instructor, is director.

ROADS and PARKING AREA—A new $100,000 road has been built to Minaret Summit. Passes right by the warming hut. Plenty of parking area for your cars. This new road is four miles long, and joins state highway, which is cleared by state highway equipment. New road has a 66-ft. right-of-way, and a maximum 6% grade. . . . . .

SKI TOWS—Five high-capacity rope tows serve Mammoth Mt. Ski Slopes. Three are in tandem, affording skiers a mile and a half of downmountain runs, with a vertical drop exceeding 1000 ft. A new beginners tow has been located adjacent to the warming hut. From the warming hut the skier can work his way up the mountain on four additional tows of 1100, 1000, 1200, and 1500 ft. lengths. Tows operate daily. Ski Patrol Service is available during skiing periods.

SKI INFORMATION—Check with your district State Chamber of Commerce office, daily newspapers, ski shops, ski club headquarters or auto club for last-minute conditions on Mammoth Mt. Or phone Crestview Lodge, Leevining 2282.

How to Reach Mammoth Mt.

From southern California take either U. S. 6 out of the Los Angeles area, or U. S. 395 from the San Diego country. These are fast, open highways. At Bishop take U. S. 395 north, direct to Mammoth Lakes Junction. Then turn west a few miles and follow the signs to Mammoth and the ski tow area. Twice daily Greyhound bus service travels between Los Angeles and Reno. Make arrangements with your lodging headquarters to meet your bus. From the north, travel U. S. 395 from Reno, Carson City, or points south. State equipment keeps these roads open, but chains are required occasionally.
